

# Week 3 Workshop: Data Science with the tidyverse

Charlotte Hadley

# Topics for today

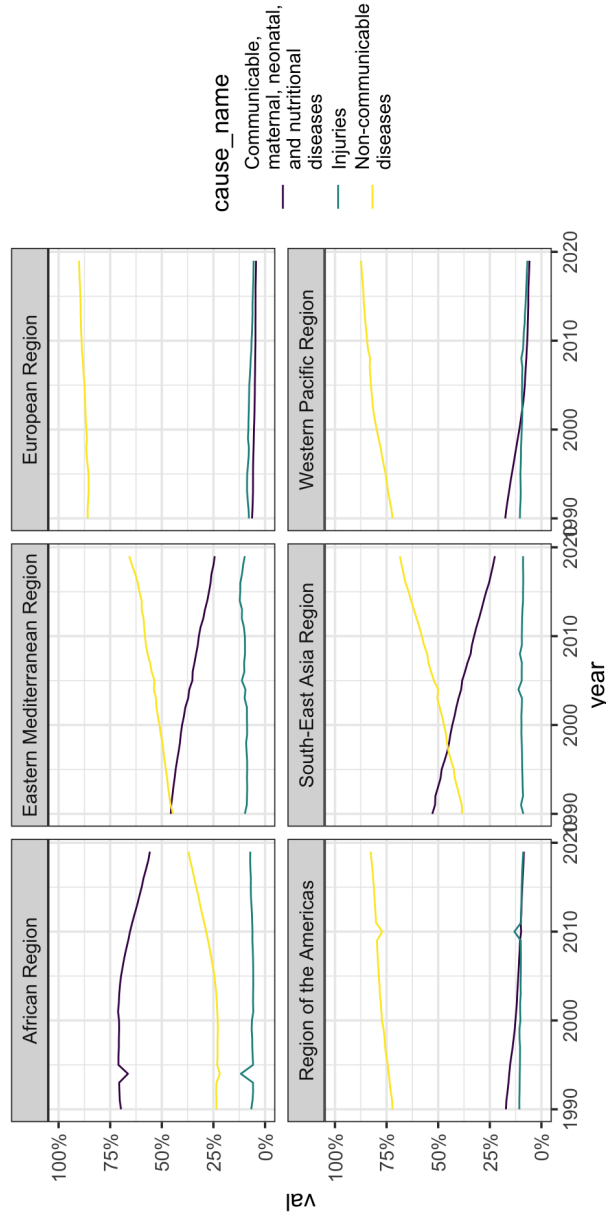

For today's workshop I'm going to ask you to experiment and explore what you can do with the tidyverse and {ggplot2} with a few different challenges.

I'll be available to help and advise. I might demonstrate some things to the class that individuals ask about.

Feel free to complete more than one challenge.

# Challenges

- Explore this dataset:  
[https://raw.githubusercontent.com/charliehadley/eng7218\\_data-science-for-healthcare-applications\\_bcu-masters/main/static/datasets/hypothesis-dataset/hypothesis-data.txt](https://raw.githubusercontent.com/charliehadley/eng7218_data-science-for-healthcare-applications_bcu-masters/main/static/datasets/hypothesis-dataset/hypothesis-data.txt)
- Choose a Tidy Tuesday dataset that interests you and make some charts of it.
- Make this visualisation of the Global Disease Burden dataset
